

## Project Engineer

The Renaissance Companies invites you to be part of our team and culture!

As a Renaissance Project Engineer, you will assist and provide oversight of projects, while adhering to established safety and quality programs for a timely and successful project completion. Renaissance Project Engineers maintain professional working relationships with owners, architects, engineers, subcontractors and co-workers. Project engineers must have a sense of urgency and ability to multi-task, but not compromise the safety of anyone.

Project Engineer Responsibilities shall include:

1. Preparation of project contracts.
2. Project scheduling.
3. Submittal reviews, including identification of long lead items and insure their ordering and any other crucial procurement of materials.
4. Implementation of The Renaissance Companies' quality and safety program on projects.
5. Proper and timely execution of data management for projects.
6. Establish and maintain team member relationships and priorities as required to achieve project goals.
7. Ensure the successful, safe and on time completion of assigned project.
8. Permit procurement and coordination with governing agencies and utility companies.
9. Finalize close out requirements, including as-builts, operation and maintenance manuals, warranties and other project and job specific required items.

### Qualifications:

- Education - This position should possess the knowledge base and experience of a Project Engineer. In addition, it is preferred to have a four (4) year construction related degree or equivalent technical training.
- Experience - A detailed and advanced knowledge of construction including codes, standards and means and methods.
- Safety – minimum OSHA 10 hour certification and current CPR & First Aid certifications.
- Technical - Experience with Microsoft applications including Microsoft Project. Experience in Timberline.
- Communication - Must possess excellent communication and interpersonal skills.
- Provide demonstrated ability to manage a team of varied trades, scopes and disciplines.

Please submit your resume, project experience and a copy of certifications to [safety@renaissancecos.com](mailto:safety@renaissancecos.com).
